

## VALET COLLECTION

### Valet by DAVID ROCKWELL

The piece that inspired the utility, simplicity and authenticity of the collection, the Valet creates an area of reprieve where one can transition from the bustle of the street to the comfort of a home or guestroom.

The Valet makes the first impression in a sophisticated, urban home. A leather bag for two pairs of shoes hangs below a walnut shelf for personal items, along with a pocket for a shoehorn.

Hexagonal brass hardware doubles as hooks for dog leashes or a purse. The blackened steel support doubles as a coat rack. A compact hexagonal mirror can be adjusted easily with a leather strap.

<b>Code</b>	VA-V100
