

Kōura

The droplet-like shape of Kōura emulates the curled form of the native freshwater shrimp, kōura, named by the indigenous Māori people. David was also inspired by the intricately crafted traps used by early Māori to catch kōura. Primarily used as a feature sculptural lighting piece, Kōura draws attention to specific locations, often hanging over a bar, in an entry space, stairwell, or hall.

Its presence has a calm purity and beauty, which can be enhanced by the chosen finish.

Koura is available in various sizes to suit any space. The plywood finish can be either raw bamboo or painted, offering a range of options.

Features

Shipped Kitset

Seed System kitset lightshades are on average 1/30th of the volume of the assembled light. This aims to help minimize the effects of shipping and to reduce the design's environmental footprint.

Warranty

This light is warranted for three years from date of purchase for failure of parts.

Care Instructions

All lights are intended for use in dry interior conditions only and can be cleaned with a soft cloth dampened slighty in warm water when the light is switched off. Do not use detergents.

EPD Certified

An EPD is a standardised and verified way of quantifying the environmental impacts of a product, based on a consistent set of rules that have been developed through a stakeholder consultation process.

^{*}Black comes with black cordset and fasteners. All others come with white cordset and white fasteners. Custom cordset lengths available on request.

Finishes

We offer 12 stock finish options for Kōura. We use low VOC acrylic paint and it is most commonly used on the interior of the light. We can also produce lights in other finishes or colours by special order. All lights are made from sustainably grown bamboo plywood sourced from an FSC accredited factory.

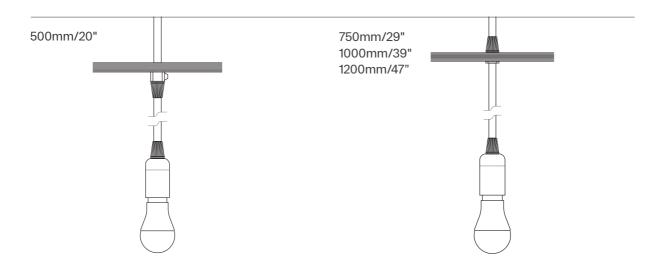

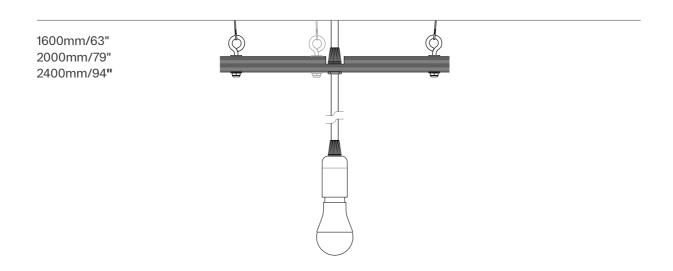

*Finishes apply to all Koura sizes

Installation

1600mm/63" 2000mm/79" 2400mm/94"

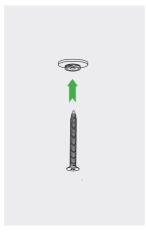

Step 1.

Decide upon hanging distance. Use the schematic diagram as a guide to pick a circle radius to be marked out on ceiling. This circle can be marked with a length of timber or string.

Step 1. Unscrew baseplate.

Step 2.

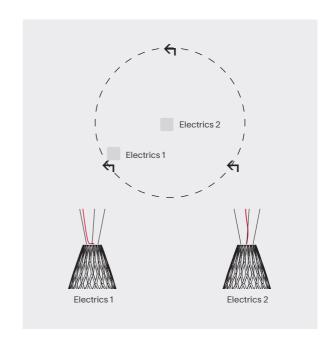

Use appropriate fixing screw to mount base plate (Fig.1).

Fixings for cone gripper (fixing screws NOT SUPPLIED).

Note: Choose appropriate hardware to attach base plate (Fig.1) to ceiling substrate.

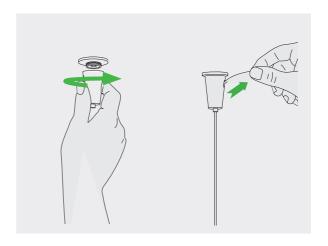

Fig 1. Base Plate

Step 2.

Mark 3 hanging points where your cone grippers will be located. You can either centrally locate the ceiling canopy or run the electric cord up one of the suspension wires.

Step 3.

Remove cable from cone. Screw cone back onto baseplate. Re-insert cable and level light. Once desired position is set, trim excess cable.
