Floral

# Floral

Floral was designed three years after Coral light, based on a geometric polyhedra forms. Floral was designed to offer a softer more decorative offering alongside Coral which is more structured.

The plywood finish can be all natural or painted creating a wide range of colour options. Floral comes in a range of sizes to suit any home or building.

# Features

## Shipped Kitset

Seed System kitset lightshades are on average 1/30th of the volume of the assembled light. This aims to help minimize the effects of shipping and to reduce the design's environmental footprint.

## Compliance

CE

AS/NZS

(Declarations of conformity available on request).

## Care Instructions

All wooden and/or polycarbonate lights are intended for use in dry interior conditions only and can be cleaned with a soft cloth dampened slightly in warm water when the light is switched off. Do not use detergents.

## Light sizes

David Trubridge kitset lightshades come in various sizes, making it easy to find the right size to any interior space whether it's small or large.

## EPD Certified

An EPD is a standardised and verified way of quantifying the environmental impacts of a product, based on a consistent set of rules that have been developed through a stakeholder consultation process.

## Warranty

This light is warranted for three years from date of purchase for failure of parts.

THE INTERNATIONAL EPD® SYSTEM

\*Black comes with black cordset and fasteners. All others come with white cordset and clear fasteners. Custom lengths available on request.

## You will need

Fixings for cone gripper (fixing screws NOT SUPPLIED).

Note: Choose appropriate hardware to attach base plate (Fig.1) to ceiling substrate.

Fig 1. Base Plate

# Installation

## 1000mm/39"

## 1200mm/47"

## 1600mm/63"

### Step 1.

Follow the order of each component in diagram. Adjust the bulb / lamp to mid way in the pendant lightshade shown in Step 2 and then tighten.

### Step 2.

Unscrew baseplate.

### Step 3.

Use appropriate fixing screw to mount base plate (Fig.1).

### Step 4.

Remove cable from cone. Screw cone back onto baseplate. Re-insert cable and level light. Once desired position is set, trim excess cable.

# Finish Choices

Natural

All bamboo (our primary material) is secondary product, from renewable forests in China grown as a food source. We have visited these plantations and are satisfied with the quality of their systems.

Caramel

Caramel bamboo starts out as natural and is carbonised using steam to caramelise the natural sugars which darken the bamboo. This process creates a different look without using chemicals.

Painted Lights

We use an acrylic low VOC (volatile organic compound) paint that is made in New Zealand. Colour swatches are available in all retailers. See the Resene website for more info.
