

Jet

Spacious design in a clear-cut industrial silhouette

normann
COPENHAGEN

A play with surfaces

The Jet shelf is the result of a designer's play with surfaces and production. The light aluminum shelf has a spacious design and a clear-cut industrial silhouette, making it appear like a part of a jet fighter's aerodynamic construction.

The designer, Simon Legald, has experimented with compositions of surfaces, spaciousness and texture and created Jet - a simple yet unconventional wall shelf. An asymmetric relationship between a horizontal and vertical surface creates the Jet shelf's architectural design and comes together as an attractive platform for storage and display.

Product Facts

Description

The light aluminum Jet shelf has a clear-cut industrial silhouette, making it appear like a part of a jet fighter's aerodynamic construction. The profile has small incisions, which create the attractive grooved surface texture. The raw, architectural design forms an attractive platform for storage and display.

Designer / Year Of Design

Simon Legald / 2016

Material

Jet in white and black: Powder coated aluminum
Jet in silver: Aluminum with anodized surface

Construction

Extruded aluminum, CNC cut after extrusion.
Delivered with plugs and screws + mounting bracket.
The maximum load capacity of the shelves is estimated to 5 kg on Jet shelf small and 10 kg on Jet shelf large.

Maintenance

Clean with a damp cloth.
Please be aware that sharp objects can leave marks.
We recommend to check and tighten screws every 3-6 months.
