# Story

Ebb lights were first launched as fully assembled lamps made from plastic and wood components. In 2015 they were redesigned as kitset which reduced the effects of shipping. Now the Ebb family of Swell, Bounce, Roll and Drop are made from Birch plywood. A much more sustainable feature pendant light. Which can be made easily at home by you! Ebbs patterns are inspired by the lines of water.

# Structure

Ebb lights are made from a high quality Birch plywood from Finland. The light is clipped together with nylon clips and comes supplied with a white E27/26 cordset.
