Let Curve welcome your guests

The Danish designer Peter Johansen has created a wooden hook in a contemporary design, with references to the classic Danish design of the '50s. The Curve hook has the classic, uncomplicated, and intuitive shape of a hook. The faceted rounding breaks up the simple feel and gives an edge to the slightly oversized design. Curve is a hook in its most traditional and symbolic form. It can easily accommodate many kinds of items, such as clothes, bags and accessories.

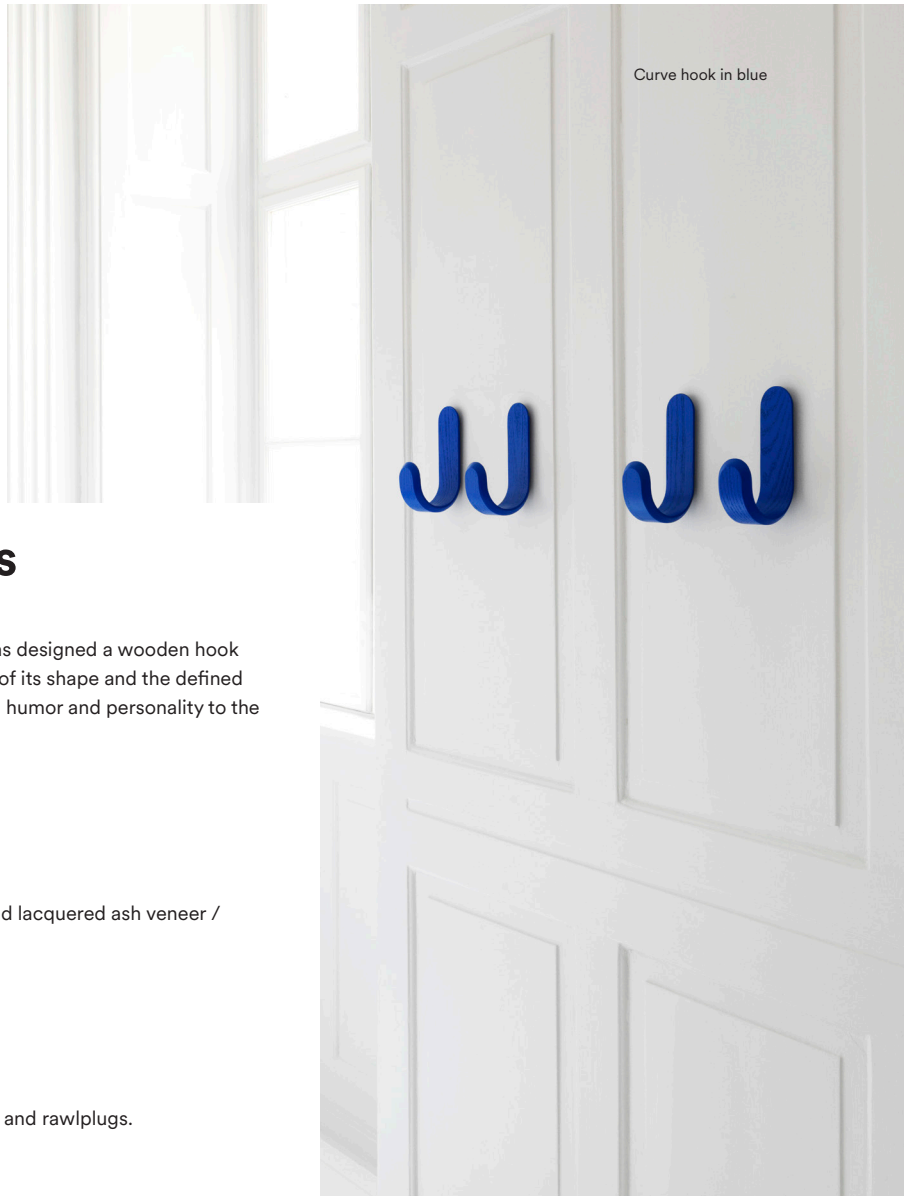

Curve hook in black, ash and white, shown with Sticks hooks and Circus pouf
