Voluminous lamps with
a soft, iconic character

Dramatic silhouettes

Phantom is a series of voluminous lamps made from a special semi-transparent resin material. The outlines of archetypical chandeliers have served as inspiration for the lamps' dramatic silhouettes, which in the ivory veil achieve a soft iconic character.

The lamps are made from a steel skeleton, around which the elastic resin is sprayed in closely-spaced threads, as a silkworm forms its cocoon. Tightly wrapped, the lamp's outline stands out like a mysterious echo of the original shape. The lamps emit an indirect, diffuse light that creates warm and atmospheric illumination.

Design

Simon Legald, 2018

Material

Fire-resistant resin / Steel frame

Construction

The Phantom lamps are made by spraying thin threads of flame retardant resin on a voluminous steel frame. Many layers of threads create the full lampshade and give it a textured exclusive finish.

The light weighted lamps come assembled with a click cover for the bottom opening.
