SCULPTURAL SHELF CRAFTED FROM SOLID STONE

Sten Shelf is a new sculptural addition to Normann Copenhagen's collection of storage solutions. As the name suggests, Sten is a decorative shelf made entirely of stone. The design is unique in its simplicity, consisting of a single stone slab resting on two rounded shelf brackets, also crafted of stone.

Designer Simon Legald explains, "Normally, you would expect a shelf to consist of brackets and a board of sorts. Here, the aim was to create a single unit where the brackets became part of the aesthetic experience rather than a purely practical, structural element."

Sten is both functional and sculptural, serving as an artistic element on the walls while also providing a practical storage solution for books, vases, or still life arrangements. Sten Shelf is available in two sizes of 120 cm and 80 cm, both crafted from 100% solid marble in a sophisticated black variant, a classic white, and an elegant travertine. Due to the use of natural stones, each shelf will have its own unique, natural pattern.

CONNECTING PEOPLE AND SPACES

Since Normann Copenhagen's foundation in 1999, our ambition has been to challenge conventional thinking and make the ordinary extraordinary through great design.

By combining the craftsmanship, functionality and endurance characterized by our Danish design heritage with modern silhouettes and durable materials, we aim to create original products in a contemporary design that withstand the test of time. We believe in uniting people and spaces across the world and improving the quality of people's lives through the power of great design.

Our products combine functionality and design and accommodate the diversity of needs of modern life in residential and professional interiors alike.
