

Maria

by Giovanni Savio

Maria, Giovanni Savio's first chair design, was a response to the need for a modern, functional, and comfortable chair. The design was inspired by the traditional Italian chair, but with a modern twist. The chair features a simple, clean design with a high back and a wide seat. The backrest is made of a single piece of wood, which is both functional and aesthetically pleasing. The chair is made of solid wood, which gives it a warm, natural feel. The design is simple and elegant, making it a perfect choice for a modern interior.
